General Patient Instructions

1. Please bring your Alberta Health Card along with your requisition form to your appointment.
2. Stay on prescribed medications. Diabetics should discuss possible stoppage or reduction of insulin with their physician.
3. Please bring an adult to supervise children.
4. Please advise us of any mobility limitations and/or any preference of female/male technologist
5. Please avoid the use of fragrances as other patients may be sensitive.

Arrive 15 minutes prior to your appointment. If you are late, your examination may have to be postponed to a later date.

If possible, please have someone accompany you on the day of your test. In case you have any discomfort, it may be more convenient to have someone else drive you home.

If you are having bilateral injections you will require someone to drive you home.

If possible, do not take any extra pain medications on the day of your exam. This allows us to better assess your response to our treatment. However, please do not stop any pain medication that has been prescribed by your doctor without consulting them first.

Preparation Instructions

Please note, exam preparation is essential in order to complete your exam

ACHILLES TENOTOMY

You will be required to purchase a walking boot to bring with you to the appointment. Failure to do so will result in the appointment being cancelled or rescheduled. You will have to wear this walking boot for two weeks post procedure.

PATELLAR TENOTOMY

You will be required to purchase a hard knee brace to bring with you to the appointment. Failure to do so will result in the appointment being cancelled or rescheduled. You will be required to wear this brace for two weeks post procedure.

SYNVISC OR DUROLANE

If your physician has requested one of the above medications, you will need a prescription from your doctor. You will need to purchase the medication before your appointment and bring it with you.

Serious complications are extremely rare but can happen. It may be normal to experience increased pain and discomfort for up to 48-72 hours after injection. If you develop a fever/chills or any sign of infection, develop new numbness or weakening in your limbs please contact your doctor immediately. If your doctor is unavailable, proceed directly to the nearest hospital emergency
